

# Different types of interview - what to expect

## Controlling the interview

- showcase your skills by talking through the job description and the CV or application form
- turn the interview into a brainstorming session on how you would do the role

## Join the team

- always try to be proactive before and during the interview
- act as if you are already an employee through positive language
- Use your CV to talk through examples

## Questions

- come armed with 4-6 questions, but don't expect to ask them all
- e.g. talk me through a first project I will be working on
- what will be the duties I will be achieving?
- what do you expect me to achieve in the first 90 days?

## **I want this job**

last impressions can often be as important as first impressions, so finish on something positive that lets the interviewers know you are interested, e.g. "thank you for your time today, I'm keen on the job, when will you let me know?"
